HELLO!

I'M GENEVIEVE.

I'm a multidisciplinary creative and the owner + operator of Paper Panther Studio. I'm a designer, handlettering artist, muralist, and crafter/maker.

I'm also a Sagittarius, ENFP or "Campaigner" personality type. I find beauty and intrigue in nearly anything. I'm imaginative and open-minded, and I am not afraid to ask big questions, explore new ideas, experiences and adventures. In fact, I thrive on it!

I am both tough as nails and soft as butta. I bring the sass, but it's all rooted in love and the spirit of playfulness. Hard and soft. Tough but cute. This is how Paper Panther Studio derived organically from who I am and my philosophy on finding balance in art, expression, and life itself.

It's no secret that I freaking love

cats. I love the energy and attitude they bring to life. They remind me to maintain a curious spirit, keep healthy boundaries, the power of both rest and play, and most importantly to NGAF what others might think about me - it's really not my business.

I've been working in marketing and design for over a decade.

I love creating digital design, and I also love working with my hands to bring designs to life in the real world i.e. anything from painting logos and custom artwork on window storefronts, to making custom merchandise design that speaks to your brand and community.

I'm naturally enthusiastic, and I am all about helping you see yourself as the magical

If you want to stand out, you're gonna need design and artwork that LEAPS OFF THE PAGE and connects with your audience.

Sure, you need a kick-ass color palette, and some sick typefaces/fonts, but even more than that you neeeeeed to dig deeper. Truly great design considers the way your customers are interacting with your business.

"IF DESIGN ISN'T PROFITABLE
THEN IT'S ART."

– HENRIK FISKAR

Let's design and write your brand story that draws your customers in like cats to catnip.

It's about strategy AND style. And that's what we're all about. So if you're after a visual identity that not only looks stunning and feels great, but also converts, you've found the right place.

FAQs

WHY DOES DESIGN COST SO MUCH?

Sticker shock is real. I get it. But I swear if I hear one more person talk about a designer's role as "making things pretty", I'm gonna scream. JK. I'll just tell you calmly here why that's simply not the case. **The price tag of any service or product is derived by not only the time it takes, but more importantly the process, the strategy, the overall value, and potential for growth.**

Simply put: there is SO much more going on than meets the eye. Making things look "nice" is secondary to so much behind-the-scenes strategy, homework, collaboration, and dedication to a common goal. The creative process can differ from designer to designer, artist to artist, depending on those goals. **As we walk through the process together, you will start to see how + why design is an important investment in the success of your business as a whole.**

My goal is not to whip out a quick logo design for you and call it a day. That would be a disservice to what I can offer and what you deserve if you are wanting more for your business. Understandably, there are lots of other designers and DIY options that cost much less and hey, maybe that's right for you right now as you experiment. My mission is to set my clients up with long-term foundation that they can grow with, intentionally and organically.

Think about it this way - **metaphorically speaking, me and my clients are building their Dream House together, which will showcase the identity, personality, values, and overall mission of their business.** A place to grow, work, and build community through shared interests and mutual goals.

In order to do this, you need a strong foundation and a blueprint for success. I can help you do that. Even better, I can make it an enjoyable process! Think therapy, but make it business. The co-work that goes into your brand strategy is the place for SO MUCH POTENTIAL! You will walk away knowing your who, what, WHY, and so much more that will ease overwhelm, drive business direction, provide clarity and allow for focus and tackling biz goals. Oh yeah, and you'll walk away lookin and "feline" fly AF.

FAQs

WHAT IF WHAT I AM LOOKING FOR IS NOT ON YOUR PRICE LIST?

No worries, I design nearly everything & anything. If you need a custom quote for a unique project, email me for a quote: hello@paperpantherstudio.com. If I am not the right person to help you, I will tell you and I will likely be able to refer you to someone who can.

DO YOU OFFER PAYMENT PLANS?

A deposit of 50% is required prior to starting your project. The remaining balance must be paid before any deliverables are supplied. If you need to talk further about payment plans, options are sometimes available depending on the circumstances. Please email me at hello@paperpantherstudio.com and I'm happy to chat.

WHAT IS THE DESIGN PROCESS?

1. DEPOSIT

Once we have talked dollars, and you are happy with your quote we will send over a design proposal that includes a deposit invoice and proposed project timeline.

2. DIALOGUE

Here, we get familiar with one another via voice/video call, questionnaires, shared Pinterest boards and such. I wanna know what your project is, what you're excited about, and what success would look like when completed.

3. RESEARCH + STRATEGY

In this phase, we figure out where you're coming from so we can strategize to get you where you wanna be.

Design serves a much higher purpose than looking cool. Each decision is informed by research and planning by identifying industry, competition, audience, history, etc. to determine positioning in the market and how to help you show up authentically.

4. PRESENTATION

After I work on the bulk of your project, I gear up for presentation and proposal! Whether we are collaborating on a vision for a mural or designing a branding campaign, you can be confident every decision is made for a reason that makes sense according to your goals, values, and mission.

5. REVIEW + REFINE

Depending on the project, this stage is where I may need to ask further questions I need answered, we tidy up any loose ends, and take inventory of deadlines for any deliverables to make sure we are on track for launch (the funnest part!)

6. LAUNCH!

We've cleared all balances, you've received your deliverables, and now we get to brainstorm ideas and plan for how to help you launch your new business, branding, or project into the world. I'm so proud of us. *queue happy tears*

FAQs

HOW LONG WILL THE DESIGN PROCESS TAKE?!

Truth be told, each job is different. If you have a deadline in mind, please let me know at the beginning of our time together and I'll let you know if it is doable. With that said, most large projects take a minimum of 4-6 weeks.

When we start working together, I'll send you a proposal that outlines a projected timeline, so you know when you can expect to hear from me and when I need to hear from you.

CAN WE TALK ON THE PHONE OR VIDEO CHAT TO SEE IF WE CONNECT BEFORE I COMMIT?

Of course. I offer free 15-min Discovery Calls for this reason. If you love the look of my work and have read through this guide, book a call with me on my website at www.paperpantherstudio.com/discovery.

Well, now that we've covered all that...

THANK YOU for reading this guide and taking in this information. I hope you are feeling excited about your growing business and upcoming projects!

I am sincerely rooting for you in all your efforts, whether I can collaborate with you or not!

However, if you are interested in working together, please read on to the next page.
